20170405-DC-NNIP-3-5

Non-Native Invasive Data Collection Form

Date	Surveyors (circle recorder)	Client	Project	Site	iPad/GPS/Camera ID
4-5-17	(E. Barrera), M. Gama	DWR	[redacted] D.C.	Silvernood [redacted] Lake	3/3/3

Site Notes

Point 1 - Shoulder of Sawpit Cyn Rd (south side).

Species Code	DIW *	CID **	Feature Type	Percent Cover (Absolute)	Percent Phenology			Total Photos	Approx. Area (sq.ft.)	Acre Class	NNIP Information (overall site description, population quality/viability, immediate & surrounding land use), visable disturbance, threats, resource concerns, comments)
					Vegetative	Flower	Fruiting				
SPAJUN	D	C	Roadshoulder	<1/5	100			4	25 sq ft	1	1. Shoulder of Sawpit Cyn Rd. Individual plant. Gravelly soils. Surrounding vegetation is chaparral shrubs w/ sparse understory. Only disturbance is adjacency to road. Not near trails.

Quantitative Data Collection: **(A)** If a plant population is estimated to cover > 0.1acre or if >100 feet (linear) - map to the boundary. **(B)** If a plant population is <0.1 acre or if <100 feet (linear) then a map single central point and an estimate of acre class will be recorded. **(C)** Acre Classes: **1-** up to 0.1 acre; **2-** 0.1 to 0.25 acre ; **3-** 0.26 to 4.0 acres; **4-** > 4.0 acres

Qualitative Data Collection: **(A)** For widespread occurrences of NNIP, or for those which detailed mapping is unlikely to remain accurate (e.g.,annual grasses, which change distributions yearly), describe general distribution and extent within the study area and estimate acre class. **(B)** If a population is identified on the perimeter of the FERC Project Boundary the extent of the population extending beyond the boundary will be estimated.

* **D** -discrete, or **W**- widespread

** **C**- concentrated, or **D**- diffuse
